<p>Preterm's mission is to advance reproductive health and justice by providing safe, respectful, and accessible abortion and sexual healthcare.</p> <p>Abortion is essential to bodily autonomy and gender equity for all people. Providing abortions is a deeply caring and revolutionary act that is part of dismantling oppression and stigma.</p>	

Position Summary

The patient support position provides support to the medical team and to patients throughout the abortion procedure. Works in recovery room, performs ultrasound during procedure, prepares pathology for review by physician, performs sterilization of instruments, and assists licensed staff in providing high quality and compassionate care to patients. Full-time work is defined as 28 hours or more per week. This position is part of the bargaining unit.

Employment benefits for staff working 28 hours or more a week include paid time off, group health insurance, short-term and long-term disability insurance, and a retirement plan.

Duties and Responsibilities

1. Review chart with patient while protecting confidentiality.
2. Completes pre-procedure activities.
 - o Sets-up procedure rooms at start of day. Assure all necessary supplies are available and OSHA requirements are followed.
 - o Stocks and cleans procedure rooms between procedures, preparing room for next patient.

- Prepares patient for procedure.
 - Facilitates the doctor/patient relationship. Informs physician of any pertinent physical or emotional factors affecting patient.
 - Remains with patient once entering procedure room with patient. Works with patient before procedure to establish rapport and address patient's procedure-related concerns.
 - Confirms patient's decision to have abortion.
3. Assist during procedures.
- Utilizes stress-management and relaxation techniques to assist patient before and during procedure with pain management and anxiety reduction.
 - Assists the physician with instruments during abortion procedure and laminaria insertion as needed.
4. Completes post-procedure activities.
- Assists patient to re-dress.
 - Assists patient into wheelchair and transports them into recovery room.
 - Settles patient in recovery room. Completes appropriate information on chart.
 - Takes products of conception to autoclave for examination. Prepares tray for cleaning.
5. Provides support and education to patients throughout the abortion process.
- Explores pregnancy options with patients.
 - If patient chooses abortion, provides information about the abortion, home care, and anesthesia choices.
 - Conveys to any pregnant person a sense of their own importance and a sense of their capacity to make choices for themselves.
 - Promotes patient's sense of empowerment by teaching stress and pain-management techniques which will assist them during the abortion procedure.
 - Completes state-mandated consultation and education requirements with patients.
 - Assesses patient's knowledge of and give relevant information about birth control methods and their usage.
 - Assists in obtaining informed consent.
 - Involves friends, families, or partners, when appropriate.
 - Provides all appropriate referrals. Referrals include services for patients who cannot be served at Preterm and other community services as needed.
 - Completes pre-procedure activities.
6. Contributes to the smooth functioning of the clinic.
- Maintains appropriate communication with Director of Nursing.
 - Consults with Director of Nursing, in their absence, other appropriate staff, when unusual issues arise with patients.
 - Maintains awareness of patient flow and paces own work accordingly.
 - Assists with greeting and checking in patients and their significant others, and with keeping clinic records current.
 - Rotates to another assignment as needed to facilitate patient flow.
 - Performs other tasks as requested by Director of Nursing or another supervisor.

7. Attends and participates in scheduled staff meetings.
8. Other duties as required.

Job Requirements

1. Commitment to reproductive justice and Preterm's mission.
2. High level of interpersonal skills is required in order to establish rapport and provide direct service to patients, to interact effectively with all clinic staff, and to support a team approach.
3. Special problem-solving skills required to assist patients in defining and resolving difficult conflicts and ambivalent feelings.
4. Strong evaluative skills required in order to assess patient needs quickly and accurately before procedures.
5. Ability to use a personal computer and proficiency in MS Office [Outlook, Excel, Word] or similar software is required. Relevant business management systems such as general ledger, HRIS, CRM, etc. is preferred.
